For more information on these and other action commands, please refer to Chapter 2 in the "MailMan V. 7.1 & Patch XM*7.1*50 User Manual."

Here's a tip—Use the Detailed Full Screen message reader instead of the Classic reader in order to save you some time when displaying basket message lists with detailed information. Also, the Detailed Full Screen message reader allows you to better manage your mail by giving you more action commands from which to choose.

Unless otherwise noted, all sample screen captures/dialogue boxes in this manual are derived from using either the Detailed or Summary Full Screen message readers.
